

Waterway Survey sites

The sites listed below have been surveyed in the past but need revisiting in order to detect changes in bat activity. If you live near one of these sites and would like to carry out two surveys in August then please contact us at nbmp@bats.org.uk or on 020 7820 7166, quoting the site code of the site you are interested in surveying.

Sites **in bold** are part of our new **“baton-passing” scheme** where new volunteers taking on repeat Field Survey and Waterway Survey sites are accompanied on their first survey by the previous volunteer who surveyed the site. If you can take on one of these sites then please let us know if you would like to request help in getting started from the previous volunteer.

To find out the exact location of the site, we recommend that you copy and paste the grid reference into a mapping website such as www.streetmap.com.
