(PLEASE SUBMIT YOUR OBSERVATIONS ONLINE IF POSSIBLE AT [www.bats.org.uk/pages/white-nose\\_syndrome.html](http://www.bats.org.uk/pages/white-nose_syndrome.html))

Your Details		
Name		
Address		
Postcode		
Daytime telephone		
Email		
Site details		
Site name		
Site location (including county)		
Grid reference		
Site code (if NBMP site)		
Date of visit		
Observations		
Bats with white fungus present	Y / N	If you answered 'yes' to any of the observations list, please provide more detail:
Bats clustered near the entrance of the hibernaculum, or in areas not normally identified as winter roost sites	Y / N	
Bats flying outside during the day, in temperatures at or below freezing	Y / N	
Dead or dying bats	Y / N	
<b>Any further comments:</b>		
Please write on reverse if necessary		

**If you see live or dead bats with white fungus, please do not touch them.**

Where possible, photograph the potentially affected bat(s). Then exit the cave immediately and call the Bat Conservation Trust at 0845 1300 228 to report the incident.

Please send photographs if you have any to:

NBMP, FREEPOST LON10138, London SW8 4BR (or attach to the online submission form).
