# Green City Bats

*Green City Bats is an exciting new project launched by the Count Bat team at the Bat Conservation Trust.*

*The focus of the project is Friends groups in the London, Bristol, Newcastle and Wakefield. This includes Friends of Parks, Churchyards, Gardens and other green spaces, as well as community conservation and action groups.*

*Groups will receive a free Bat Information Pack packed with useful sheets and leaflets including:*

- *Information on bat species found in London*
- *Advice and ideas on how your group can help conserve bats*
- *Suggestions of activities and events to involve the local community*
- *Information on local bat groups*
- *Stickers, posters and lots more!*

*There are 17 different species of bat found in the UK with 10 species recorded in London. Bats are recognised as indicators of a good quality environment and are protected by law due to the decline in their populations.*

*For more information and to register your group, please visit [www.bats.org.uk/greencitybats](http://www.bats.org.uk/greencitybats)*

*If you would like to discuss the project or require more information, please contact your Count Bat Regional Officer on 0845 1300 228 or [countbat@bats.org.uk](mailto:countbat@bats.org.uk)*
